 Octopus LED Screens

CHOOSE THE LAYOUT FOR YOUR SPORT

Examples of the scoring displays available through PC Scoreboards and its linked AFL software.

AUSTRALIAN RULES FOOTBALL

CRICKET

SOCCER

BASKETBALL

NETBALL

RUGBY

BASEBALL / SOFTBALL

HOCKEY / HANDBALL / LACROSSE

FUTSAL

TENNIS

VOLLEYBALL

WATER POLO

More options: badminton, handball, multisport, pickleball, wrestling, team scoring, shot clocks and game timers.

Each sport has its own scoring rules and display layout. Product editions, remote controls and optional features are selected to suit your venue; a separate or additional software licence may be required.

Preview artwork: PC Scoreboards catalogue supplied by customer. Layouts shown are examples.

Octopus LED Screens

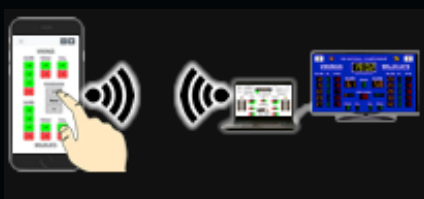

MORE THAN THE SCORE

Choose the software features and integrations that suit your club, competition and venue.

LIVE TV / LIVE VIDEO

Switch from scoring to a compatible TV receiver or video source through the LED processor's HDMI inputs.

WIRELESS SCORER CONTROL

Operate supported scoring software from a phone, tablet or laptop on the same local network.

SCORE BANNERS

Overlay scores on live or recorded video using compatible software and video equipment.

SCREEN POSITIONING

Adjust the scoring display's position and dimensions to suit your LED screen.

LOCAL SPONSOR ADVERTISING

Show local sponsor logos, offers, images and promotional videos between games or whenever scoring is off.

VIDEO PLAYBACK

Play your own clips during breaks with a software edition that supports video playback.

LIVE DATA OUTPUT

Send scoring data to compatible graphics or other systems through supported export options.

BACKBOARD LIGHT CONTROL

Optional interfaces can trigger suitable basketball backboard lights when the clock expires.

Live TV needs a compatible external source and any required viewing subscription or permissions. Sponsor playback and integrations depend on the chosen software, licences and hardware.

Layout and feature examples: PC Scoreboards and customer-supplied Octopus artwork.

 Octopus LED Screens

A TYPICAL SCOREBOARD SETUP

See how the screen, scoring PC, wireless controls and horn work together.

CUSTOM LED DISPLAY

Screen size, shape and pixel pitch are selected to suit your sport, viewing distance and venue.

LED VIDEO PROCESSOR

Connects the scoring computer and compatible video sources to the LED screen.

FIXED OUTDOOR HORN SYSTEM

Amplifier protected inside the comms enclosure, with a fixed outdoor horn for game sounds and alerts.

SCORING COMPUTER + USB LICENCE

Dedicated scoring computer with licensed scoreboard software. Provides the scoring display and horn audio.

OUTDOOR WIRELESS NETWORK

Local wireless connectivity lets authorised scorers use compatible phones, tablets or laptops.

PROTECTED COMMS ENCLOSURE

Houses the computer, processor, network equipment and amplifier, with site-specific cable sealing and heat management.
